

VRINDA STORE ANNUAL SALES REPORT

By : Sahil Thakur

ANNUAL SALES ANALYSIS

This report presents an in-depth analysis of sales performance of VRINDA STORE for the year [2022]. Using Excel, key trends, monthly comparisons, and product-level insights were identified. The goal is to help stakeholders make data-driven decisions for the coming year.

Data Source : Public sample dataset used for learning purposes

Tools and techniques used

Microsoft Excel features used (e.g., Pivot Tables, Charts, Formulas, Conditional Formatting, Slicers, Data Cleaning).

Data was cleaned and structured using Excel functions such as IF, TEXT and SUM. Pivot tables and dynamic charts were used to analyze performance by product, month, and region. Conditional formatting was applied to highlight sales trends.

OBJECTIVES

- Compare the sales and orders using a single chart.
- Which month got the highest sales and orders ?
- Who purchased more - Men or Women in year 2022 ?
- What are different order status in 2022 ?
- List top states contributing to the sales.
- Relation between age and gender based on number of orders.
- Which channel is contributing to maximum sales ?

DASHBOARD REPORT

Compare the sales and orders using single chart.

Which month got the highest sales and orders ?

The Bar and Line chart shows a strong positive correlation between total sales and the number of orders across the year.

March month with higher orders generally resulted in higher sales, indicating consistent revenue per order with sales close to **1.95 million** and order numbers up to **2800**.

Who purchased more - Men or Women in 2022 ?

Sales : Men vs Women

Women placed more orders than men in 2022 contributing to **64% of sales** and **men** with only **36% of sales** indicating a stronger contribution to the company's overall sales volume. Targeted marketing toward **women** may help drive even more conversions.

What are different order status in 2022 ?

Order status

Delivered orders made up the majority with up to **92%** reflecting efficient fulfillment, while **cancellations, refunds** and **returns** remained relatively low contributing to **8%** collectively.

List Top 5 states contributing to the sales.

Sales: Top 5 States

The top sales-contributing states were **Maharashtra, Karnataka, Uttar Pradesh, Telangana** and **Tamil Nadu** . These regions consistently generated the highest revenue, suggesting strong market penetration and customer base with **Maharashtra** being at the top with close to **3 Million in sales**.

Relation between age and gender based on number of orders.

Women aged **(30-50)** in **Adult** category placed the highest number of orders, followed by **Men** in the same age group. Younger age groups **(18-24)** were active as well, showing strong engagement from millennials and Gen Z.

Which channel is contributing to maximum sales.

Orders : Channels

Among the various online sales channels, **AMAZON (35%)** generated the highest revenue, followed by **MYNTRA (23%)** and **FLIPKART (22%)**. This indicates that customers prefer shopping via these platforms, and optimizing their performance can further boost conversions.

Lesser-performing channels like **MEESHO (5%)**, **AJIO (6%)**, **NALLI (5%)** and **OTHER (4%)** sites may require improvement in user experience or visibility.

Insights

- March emerged as the best-performing month, with nearly 1.95 million in sales and 2800+ orders, confirming a strong link between order volume and revenue.
- Women contributed 64% of total sales, indicating a dominant customer segment, especially in the 30–50 age group.
- The order fulfillment process was highly efficient, with 92% orders delivered successfully.
- Maharashtra, Karnataka, and Uttar Pradesh led in sales, with Maharashtra alone contributing ~3 million, showcasing strong regional performance.
- Among online channels, Amazon, Myntra, and Flipkart were top revenue drivers, while platforms like Meesho, Ajio, and Nalli showed lower performance.
- Engagement from millennials and Gen Z, particularly females, reflects an evolving digital-first consumer base.

Conclusion and actions for 2023

- 📣 Increase targeted marketing toward women aged 30–50, the most active and profitable demographic.
- 📱 Prioritize app experience and promotions on Amazon, Myntra, and Flipkart to strengthen high-performing channels.
- 🌐 Run regional campaigns in top-performing states to deepen customer loyalty and expand further.
- 🛒 Improve visibility and UX on underperforming platforms like Meesho, Ajio, and Nalli through collaborations or redesigns.
- 🚚 Maintain high delivery success rates while minimizing returns and cancellations through better order tracking and support.
- 🎯 Launch tailored promotions for Gen Z and younger age groups, especially through mobile and social platforms.

THANK YOU
